FORD ECONOMY

A new low cost financing arrangement for those who wish to buy their new Ford on the deferred payment plan. This plan effects a saving to the customer of approximately 20% under the old financing rates and was authorized and sponsored by The Ford Motor Co. for the sole purpose of giving to its customers exclusively a uniform time-purchase plan at the lowest cost commensurate with sound business policy.

The Universal Credit Company, the name by which this organization is known, was not created with the primary object fit, but rather for the purpose of conti Motor Co. policy of passing on to the customer any saving which they have found possible to effect.

Call at our showroom or phone and let us explain this plan in detail.

If Christ Should Come

BY DR & E TURLES

Pastor Fuwerth W E Church cie i i nurches of our fair city could annous

mo. ng Jesus Christ would attend in person the six tir what a crowd that church would have. How people well come from after t get a glimpse of the Christ, to hear his volce and perchance receive some farer from Him

Once Jesus sail - Blessel are those sensate whom the Lord when He come h shall ful watching Now if Christ should come to Marion he would probably do ab it is be did when he walked the hills of Judea and taught by the shores of Galilee. In those days He went where there was an afflicted child a sorrowing heart a blighted life a needy soul. He graced the marriage of Canu with His presence. He taught in the synagogues. He preached the word of life to the woman of Sychar, the topped a funeral procession and restored n son to his widowed mother. He opened the blind eyes of Bartimens. He shared the hospitality of a Bethany home, He preached the gospel of god news and salvation to every one who would believe

If Jesus should come to Marion He would be interested in our modern problems in the success of our it mes in helping us overcome our difficulties in arousing us out of our religious indifference to lives of hereic services and action in applying this principles in industry in business in our dealings with our fellowmen

He would no doubt urge us to be pure in our thought in our words, in our conduct. Once again he would probably any -- Come unto me and I will give you rest. ' Walk with me and you will not walk in darkness but have the light of life "I um come to give you life and

life more abundantly Seck first God's kingdom and the things you need will be given you"

Bus Operation in Ohio.

Some idea of the extent to which the bus lines have cut into the passeuger business of the steam and electric roads is brought home to us of Ohio by ngures given out by a Chicago news syndicate, yesterday, showing bus lines in 1929 covered 50 000 000 miles in this state and carried 30 000 000 passengers One line, the Greyhound the figures show, alone operated over 6 750 000 miles on the states highways

The latest figures obtainable show that 2 121 passenger-carrying buses are being operated in this state. This means one bus in approximately every 2 500 of the states population. In respect to number of buses operated it may be said that Ohio is exceeded only to New York Pennsylvania and New I race which rank first second and third, in the other named. The seaside resorts of the tas named state and its proximity to breater \ w York and the environs of the metropolis combining to encourage bus trafthe in New Ier (3 out of all proportion to its

We confige that we had used to be the form of the first configuration. the fact that farmers come under the open ation of the law but we can see the force of his citation of a case in which a claim was recently filed against a furnier who regularly employed three er more mon One of these men the supervisor is quoted as say his arm broken when kicked by a horse. The furmer voluntarily rail \$" : before the claim was filed. Lifty dollars was yet dur it was pointed out he was lurky that the in jury was minor and that he might have been called upon to pay a \$6 .00 death claim he gladly took out insurance

So far so good. Up to this point we could travel right dong with the supervisor but we certainly learned something when he held out that churcies and such organizations came under the operation of the liw | This is the way he was quoted in the authorized statement regarding the operation of the compensation law with regard to church organizations

employers are concerned are churches and similar organizations. I know of out one death claim flied against a church, but many have been filed for minor injuries buch urgunizations seldom have a large surplus in the treasury and the payment of a claim is a real hardship. Any thurch that has a pastor secretary and junitor in other words pastor secretary and junitor in other words source three employes is liable. Many of the in teeth juries reported have been to men making repairs building a new church or working

We can understand how a church organization could be held responsible for the injury or death of a men engaged in repairing a church building a new church or building an addition to a church where his regular emplayer if any did not carry tosurance but we confess to surprise that the secretary of a church organization let us say by way of Illustration who works at the job probably a day a month can hold a church responsible

for injury received by him while so engaged We wonder him many churches lodges and clubs in this city which employ three or more persons in one capacity or another realize the liability which may at any time confront them

If a pustor a secretary and a lanitor bring a church organization within the operation of the law all we have to us is that It would be mighty risky for any person to re tain by the year the services of a lawyer a doctor and a dentist. This may be spreading the proposition out pretty thin but not much more so than the department of claims in terpretation of the case of a church employing a pastor a secretary and a janitor
